

# Don't Just Stay. Stay Smart.

A wise way to stay with “handy”  
– our free rental smartphone.

KYOTO CENTURY HOTEL

Starting on Friday, August 4, 2017, we will be the first hotel in Kyoto to join 600 hotels in 17 countries to provide this free in-room rental smartphone service exclusively to hotel guests. All 219 guest rooms will be equipped with this new service.

## What' s “handy” ?

“handy” is a smartphone exclusively provided to staying guests that provides free and unlimited international and domestic calls and internet data communications.

Of course, you can also take it with you on your outings. It is a new communication tool that connects the hotel with guests to boost comfort throughout the hotel experience.

Connect directly to any hotel service at anytime from anywhere, and receive the latest Kyoto news.

We provide services that go beyond the typical hotel experience.

## [Free Unlimited Calls]

Make domestic and international calls, as well as room-to-room and hotel extension calls for free.

You can call friends and family without having the front desk connect you.

\*Free international calls to 7 countries: Australia, USA, Hong Kong, China, Korea, Taiwan, and Japan.

## [Free Unlimited Internet]

Access the internet while sightseeing without worrying about roaming fees and Wi-Fi spots.

You can also download SNS and camera APPs to suit your needs.

## [Free Kyoto and Kansai Area Tourist Information]

Receive all the information you need including daily Kyoto and Kansai area event information, sightseeing recommendations, amusement, restaurants, and more.

This brilliant service offers a “handy” way to get the latest information not covered in guidebooks.

## **[Easy Contact between the Guest and Hotel]**

If you need assistance from outside the hotel, you can contact the hotel concierge or front desk, or book a hotel restaurant by using the “handy” dial pad for easy connection.

The service also offers a safe option as you can use “handy” to contact the hotel in the event of a disaster. We are also planning to send special hotel offers to “handy” users.

## **[Security and Private Data Management]**

Please rest assured – all personal information will be deleted automatically, manually, and remotely from the device after use.

## **Why “handy” ? The vision of a historic hotel in Kyoto, the aspiring sightseeing capital of the world**

With the 2020 Olympic and Paralympic Games coming to Japan, the city of Kyoto is aiming to establish its position as a city of sightseeing adored by the world’s travelers. As a hotel with 90 years of history in Kyoto and hoping to become a visitors’ choice hotel, we have decided to add “handy” to our services so that domestic and overseas guests can experience first-hand the spirit of Kyoto-style hospitality and enjoy more satisfaction at the hotel and in Kyoto.
